

# Kajagoogoo, You really take my breath away

(VERSE 1)

I need to take a look round  
Till I understand what's the good I've found  
I need to, just as you like it alright

(VERSE 2)

And I can hear you talking aloud  
In the voice I've grown so accustomed to  
I can hear you, just as you like it alright

(BRIDGE 1)

Are you feeling alone, are you lonely?  
There's a place in my arms for you only  
You're holding the beat  
That my heart keeps missing every day

(CHORUS)

You know you really take my breath away

(VERSE 3)

This fever can burn you alive  
If you lose your feet or the will to survive  
This fever can burn you alive now alright

(BRIDGE 2)

Unaware of mistakes you are making  
I'm temporarily here for the taking  
Competition is hot  
And the odds get thinner every day

(REPEAT CHORUS)

You know you really take my breath away

(BRIDGE 3)

Apart from the vast complications  
we're both aware of the list of temptations  
Too bad that we could not trust  
In each others feelings every day

(REPEAT CHORUS)

You know you really take my breath away
