

# Kamera, At Work

The work you do is a paid slavery  
You sell your hours at some factory  
An easy job you just do as you're told  
And watch out so it doesn't kill your soul

Don't let boredom get a hold of you  
And don't you listen when they  
Try to tell you what you can do  
Don't let boredom bring you down  
Keep your head up high  
Keep your head up high  
Keep your head up

Hey girl, hey boy  
Rip it up, smash it up  
Don't stop now  
You gotta give it all you got  
Put your trust in us  
We won't be letting you down  
We won't be letting you down

The clock is cutting lines into your face  
And also nothingness will leave a trace  
This one thing sets the ones you love apart  
The ones you love can always break your heart

Don't let trouble get a hold of you  
Don't let it hold you back from  
Doing what you're longing to do  
Don't let trouble bring you down  
Keep your head up high  
Keep your head up

Hey girl, hey boy  
Rip it up, smash it up  
Don't stop now  
You gotta give it all you got  
Put your trust in us  
We won't be letting you down  
We won't be letting you down  
(x2)

Don't let boredom bring you down  
Don't let boredom bring you down  
Keep your head up (head up..)  
Keep your head up (head up..)

Hey girl, hey boy  
Rip it up, smash it up  
Don't stop now  
You gotta give it all you got  
Put your trust in us  
We won't be letting you down  
We won't be letting you down  
(x5)
