

Kane, Way Down Inside

Way down inside
Way down this heart of mine
With the coldest stone
And give I
And that's were I'll stay
And that's were I'll hide
For the latest time
With December
Do you see me? Where I am
Do you see me? Where I hide

Cause I'm way down inside
Far across the water
Faster then I'll could
Surrender
But I drifted away
Can use
That's the time
Way down inside

Way down inside
It's a true little one-man-show
Way down inside
That's a part of me I'm never leaving more
Inside , I can ride but I can not hide
Way down inside

Way down inside
Far across the shadow of life
Faster help best flames
Or besides you
Well I can not for I
Calling this crazy things
Way down

Do you see me where I am
