[T.I]

You go see Weezy for the worplay, Jeezy for the birdplay,
Kanyeezy for the diversity and me for controversy.
All my verses picture're perfect and they meant to serve a purpose.
You ain't living what what you kickin and you worthless.
Lookin from the surface. It may seem that I got a reason to be nervous.
Then observe my work and see that my adversity was worth.
Verses auto biographical, absolutely classical.
Last thing I'm worried bout is what another rapper do.
Ain't nobody hot as me, even if their rap, their ass of blast off,
and have outstanding qualities.
Sell a lot of records and salute that,
but spitting real life on beats, I'm the truth at.
You kick it like me, no exaggeration necessary.
Living levolutionary, nothing less than legendary.
Gangsta shit hereditary got it from my dad.
Flow colder than February with extraordinary swag.

[Chorus]

No one on the corner has swagga like us, swagga like us, swagga, swagga like us.
No one on the corner has swagga like us, swagga like us, swagga, swagga like us.
No one on the corner has swagga like us, swagga like us, swagga, swagga like us.
No one on the corner has swagga like us, swagga like us, swagga, swagga like us.
