

# Kanye West, Life Of The Party

It's after hours at that glamorous night spot  
And they're taking it easy, swapping personal experiences  
Let's listen in America Today  
Life of the party, mhm, 'til I almost cry, mhm  
It's the life of the party, to think I could've almost died  
Lord, help us

[Verse 1: André 3000]

Hey, Miss Donda

You run into my mama, please tell her I said, "Say something"  
I'm startin' to believe ain't no such thing as Heaven's trumpets  
No after-over, this is it, done  
If there's a Heaven, you would think they'd let ya speak to your son  
Maybe she has in the form of a baby's laugh  
I heard passing by in a stroller remindin' me, "Hey, keep rolling"  
I don't know, maybe she has with a prick of a blade of grass  
I've been layin' on way too long, got me itchy  
Got up and roamed a lil' more  
Miss Donda, you see my mama, tell her I'm lost  
You see, she'd always light a cigarette, we talk, I would cough  
Exaggeratin' a lil' bit so she get the point  
Tryna get her to stop smokin', I would leave and fire up a ..  
'Til I quit, started back up again, twenty years later  
All that time, y'all thought a .. was high, thought I was crazy  
My mom, she ain't cut no corners  
Got me back on track, I don't miss her overstepping  
But do miss her showin' Seven civilian life ..  
Ah, Miss Donda, you see my mama, whisper her this:  
The real reason I was geeked to go to church  
Must confess, when y'all grown-ups would be in Bible study  
That girl helping me with my homework? Her and I were ..  
So pure and .., so spirit spinning and dirty  
So on, so on, and so on, we hoped that no one heard us  
Sh-sh, ah, ah  
And to this day, I think her mama knew but let us explore  
Miss Donda, you see my father, please, ask him why he never married  
Always smiled, but was he happy inside?  
Because I carried my mother's name, did he carry shame with him?  
I'm sure she did it out of spite, 'twas her decision at birth  
Shit, she probably was hurt, ah, poor baby  
Two young people with different views, a lot for a young lady  
No coincidence, they both passed away from heart conditions  
There's a dissidence at play, dad and mom do hard division  
Three Thou', poster child for big .. .. raised by their mothers  
I'm supposed to smile as if God knew that I would be troubled  
Keeps me around, for what? I don't know  
But I do know that it's crucial, that we do so, pronto  
I don't know how much long though

Straight from Shibuya, on some zen

We back, ramped up, we on ten

It's a marathon and look, we comin' for the win

Just like Puff told Christopher, we gon' win big (C'mon)

Put the whole family on, look at what my Kim did

Just like Puff told Christopher, we gon' win big (Uh)

We gon' win big (What?)

Southside gang mentality weigh heavy

I was thinkin' out the box even in a Box Chevy

And my favorite art teacher name was Mrs. Levy

'Round the time, I learned to put my feelings to a medley (The life of the party)

I ain't turn in homework for like four months and I bet she let me

She saw the vision

"Yeezy you special, go make your own decisions then"

Man, that was a good choice, faith driving us like a Rolls Royce  
They tried to take my voice away, I ain't try to take ya choice away  
I just prayed the water break, just for my daughter sake, from a slip-up  
Fake signatures from fake managers, it all damage ya, good Lord  
Give 'em enough of they own rope to hang 'em with  
The paparazzi never really got what my angle is  
They treat my married life like some type of entanglement  
My neighbor still dissin', wonderin' why I ain't sayin' it  
I can smell the setup, that's that 2Pac in Vegas hit  
I revealed myself and some don't know what to make of it  
God has said himself to make sure that the baby live  
And if Ye ain't here, then tell me who gonna say this here?  
Wait a minute, wait a minute, wait a goddamn minute  
Let me stop playing with it, hopped in a Lamb' with it  
Hopped in a Lamb' with it, in a damn pandemic  
Nerve of Uncle Sam gotta have his damn hand in it

Listen, straight from Shibuya, on some zen  
I'm on ten, it's a marathon and look, we comin' for the win  
Just like Puff told Christopher, we gon' win big (C'mon)  
Put the whole family on, look at what my Kim did  
Just like Puff told Christopher, we gon' win big (Uh)  
We gon' win big What?

Do y'all feel me? Really?  
Get off Scott Free, I'm talking Ridley  
Get off our knees, that's if you're with me  
Get off your knees, that's if you're with me  
Get off your knees and let's get free  
Get off your knees and let's get free  
Really, I mean really  
Really, I mean really  
I need release, I don't need police  
I'm like, puh-lease"  
Y'all can't hear me, (Harmonizing), for the real me  
For the real me, I mean, mhmm-mm

Alright, it's gonna shoot us in the woah, uh-oh, uh-oh  
Ready mama? (Yup)  
I'm so proud of you, yup, you're gonna have so much fun  
They gonna shoot us in the air, mama, okay?  
C'mon, P, I got you, it's okay, mama  
Hold your head back, hold your head back (Three, two, one)  
Daddy's here, daddy's here, daddy's right here  
It's okay, mama, daddy's here, daddy here  
Help, help, daddy's right here, I'm scared  
Okay, okay, I got you, it's okay  
Okay, we goin' slow, we goin' slow down  
It's okay, stop cryin', daddy got you, see, it's over, you did it, P!  
You already did it! See? It's already over! Yay! You did it!  
Big Girl! It's already over! It's already over, it's already over (The life of the party)  
Daddy right here, daddy right here ('Til I almost cried)  
I told you I'm not gon' let you go  
I'm not gon' let you go, mama, okay?  
Daddy got you, daddy gon' bring us all the way down, okay?  
How was it? (We good)  
You did a good job (It was scary)  
Good job! (Our daughter got more heart than you)
