\*ENGLISH TRANSLATION\*

Even if you embrace me until it's suffocating  
We will never become one.  
In a place deeper than gentleness  
Touching each other is merely pain.  
Please bind the two of us.  
We will dream no more,  
Joining hands in uncertainty  
Walking towards  
The cruel dawn.  
True words are surely  
Somewhere in the true world,  
Lurking  
In our wordless night.  
Surely even now  
Meeting each other in order to know loneliness,  
We won't know until we exchange a kiss.  
Even so, I am trembling with the joy  
Of having met you.  
Please support my heart.  
We will dream no more,  
We can't run to a warm place.  
We will surely overcome  
The cruel dawn.  
The abandoned quietness  
Will surely find  
The true words  
In order to lovingly hurt each other.  
Someday surely  
Even if you embrace me until it's suffocating  
We will never become one.

O cold starts before dawn,  
Please light  
The path that's just for us.
