====English====

&lt;/lyrics&gt;

I hope the beat of the wind reaches you  
The Psychic Energy To the soaring future

The peaceful days I once saw in a dream  
I search for tomorrow along with a crimson war-demon  
I weave an invisible blade in my heart  
Sorrowful memories become my strength

The R-3 Machine leads me to the enemy  
The Psychic Energy leads me to the dream world

I won't worry alone anymore  
The steel giant cuts through the sky  
The bond with my comrades I feel in my heart  
Fierce anger become my blade

The R-3 Machine I get power in the sky  
The Psychic Energy I get a chance in the future  
I hope the beat of the wind reaches you  
The Psychic Energy To the soaring future

I weave an invisible blade in my heart  
Sorrowful memories become my strength

The R-3 Machine leads me to the enemy  
The Psychic Energy leads me to the dream world

Wiping away these flowing tears  
The Psychic Energy Towards the light  
The R-3 Machine I get power in the sky  
The Psychic Energy I get a chance in the future
