Kara's Flowers, Pantry Queen

The wind blows Your mind falls down Just give me The time to drown

The wind blows Your mind falls down Just give me The time to drown

The boys are Digging the ground But I can't Stop spinning around

One day you will let me be What I wanted you to be

The boys are Stopping the ground From taking Those things we found

Someday she will let me see All of the things we used to see

One day you will let me be What I wanted you to be Someday she will let me be The champ you wanted her to see Pantry Queen
