

Kari Amirian, Jump Into My Heart And Stay

I feel empty like a robot
I can't smile or even cry
But something moves me from the inside
Oh, it's started
Yeah, it's started

I see desert all around me
Blank space that only you can fill
Strong wind's sprang up and then grabbed me
Oh, it's started
Yeah, it's started

Jump deep into my heart and stay
I'll hide you in... oh, oh, oh
I want to feel you night and day
Uoh, uoh, uoh, ooh, oh, oh
/2x

Deaf ears start to be hearing
Beloved heart reflects the light
Gold dust on me gives a feeling
That it's started
Yeah, it's started

Jump deep into my heart and stay
I'll hide you in... oh, oh, oh
I want to feel you night and day
Uoh, uoh, uoh, ooh, oh, oh
/2x

Oh, it's started
Yeah, it's started
Deaf ears start to be hearing
Oh, it's started
Yeah, it's started
Ooh, oh it's started

Jump deep into my heart and stay
I'll hide you in... oh, oh, oh
I want to feel you night and day
Uoh, uoh, uoh, ooh, oh, oh
