

# Kari Amirian, Jump Into My Heart And Stay

I feel empty like a robot  
I can't smile or even cry  
But something moves me from the inside  
Oh, it's started  
Yeah, it's started

I see desert all around me  
Blank space that only you can fill  
Strong wind's sprang up and then grabbed me  
Oh, it's started  
Yeah, it's started

Jump deep into my heart and stay  
I'll hide you in... oh, oh, oh  
I want to feel you night and day  
Uoh, uoh, uoh, ooh, oh, oh  
/2x

Deaf ears start to be hearing  
Beloved heart reflects the light  
Gold dust on me gives a feeling  
That it's started  
Yeah, it's started

Jump deep into my heart and stay  
I'll hide you in... oh, oh, oh  
I want to feel you night and day  
Uoh, uoh, uoh, ooh, oh, oh  
/2x

Oh, it's started  
Yeah, it's started  
Deaf ears start to be hearing  
Oh, it's started  
Yeah, it's started  
Ooh, oh it's started

Jump deep into my heart and stay  
I'll hide you in... oh, oh, oh  
I want to feel you night and day  
Uoh, uoh, uoh, ooh, oh, oh
