Karin Park, Fryngies

They are eating me up with their big jaws And there's a million snakes on the cold floor

I can feel their sticky breath in my neck and from a hole in the ground I hear a big roar

Legs, don't fail me stumble or fall I need you to stand it all Hips and waist don't leave me to crawl Show them like I was a dancer

Step right,s tep Step right, step The only thing I have in this world is the road where I choose to go so Step right, step

I am playing cards with a shit hand but I can tell a story like an old man I walk with a bleeding knee and a desperate mind I'm pushing forward to the bold land

Legs, don't fail me stumble or fall I need you to stand it all Hips and waist don't leave me to crawl Show them like I was a dancer

Step right, step Step right, step The only thing I have in this world is the road where I choose to go so Step right, step
