

Karmin, Everything Is Right

You've been thinking, nothing happens by mistake
If doors are closing, doors will open in their place
Still you worry what the future's got in store
Now you're older, life is colder than before
So you say...

Oh, oh oh oh, oh oh oh - here we go
Oh, oh oh oh, oh oh oh - here we go

And I say...
Just stop, see the stars align
Slow down, take your time 'cause
Everything is right, everything is right
Just stop, let yourself be free
Slow down, can't you see that
Everything is right, everything is right

Take direction, there's no compass in the game
Point the needle, no two people live the same
Still you worry, don't you read between the lines
Just relax now, life is random by design
And you say...

Oh, oh oh oh, oh oh oh - there we go
Oh, oh oh oh, oh oh oh - there we go

And I say...
Just stop, see the stars align
Slow down, take your time 'cause
Everything is right, everything is right
Just stop, let yourself be free
Slow down, can't you see that
Everything is right, everything is right

Everything I need, is here inside of me
Be what it will be
Victory or fall, I embrace it all
Ending up on top

Just stop, see the stars align
Slow down, take your time 'cause
Everything is right, everything is right
Just stop, let yourself be free
Slow down, can't you see that
Everything is right, everything is right
