

# Kasabian, British Legion

See, see how she dances,  
With that cigarette in her hand.  
And she, she romances, everybody, like she can.  
And she, brings to light, and catches me again.  
In life, I've seen some wonders, I've played my stupid games with you,  
And sing to me like I know you can,  
You're a girl without being.  
And she, hits a snare, and catches me again.  
And I guess, you know, to keep on, dancing. Like I know you can.  
We're gonna make it through.  
We're gonna make it through, now.  
Cos we're gonna make it through.  
We're gonna make it through, now.  
And the circus leave this town,  
We're gonna make it through, and win.  
Say we're gonna make it through, now.  
Yeah, we're gonna make it through.  
I said, we're gonna make it through, now.  
And the boys with their dreams, for the boys and their dreams.  
I know you're carrying me.
