

# Kasabian, Butcher Blues

Coco believe me  
I'm a lonesome man  
I wanna get stoned and trip some wires  
I wanna get myself underground  
I said that, you must believe me  
When I say I'm fightin the dead  
Lyin low across the evening  
Can you see the lumps on my head?  
But I got these voices that just keep singin out  
Sayin..  
&quot;I just cant stop losin' control&quot;  
&quot;I just cant stop losin' control&quot;  
Said that...&quot;I just cant stop losin' control&quot;

Trench wander pavement  
Tryin to score some love  
In the corner of the city  
Matching faces with fees  
I guess that you never been here by the look upon ya face  
Standing with all the whores and cannibals  
In the censored race

Singin out..  
&quot;I just cant stop losin' control&quot;  
&quot;I just cant stop losin' control&quot;  
Said that...  
&quot;I just cant stop losin' control&quot;  
&quot;I just cant stop losin' control&quot;

I got these voices....
