

Kasabian, Ovary Stripe

Coco believe me
I'm a lonesome man
I wanna get stoned and trip some wires
I wanna get myself underground

I said that, you must believe me
When I say I'm fightin the dead
Lyin low across the evening
Can you see the lumps on my head

But I got these voices that just keep singin out
Sayin
I just cant stop losin control
I just cant stop losin control
Said that I just cant stop losin control
I just cant stop losin control
I just cant stop losin control
Said that I just cant stop losin control

Trench wander pavement
Tryin to score some love
In the corner of the city
Matching faces with fees

I guess that you never been here by the look upon your face
Standing with all the whores and cannibals
In the censored race

Singin out
I just cant stop losin' control
I just cant stop losin' control
Said that
I just cant stop losin' control
I just cant stop losin' control

Singin out
I just cant stop losin' control
I just cant stop losin' control
Said that
I just cant stop losin' control
I just cant stop losin' control

I said that, you must believe me
When I say I'm fightin the dead
Lyin low across the evening
Can you see the lumps on my head

I guess that you never been here by the look upon your face
Standing with all the whores and cannibals
In the censored race

Singin out
I just cant stop losin' control
I just cant stop losin' control
Said that
I just cant stop losin' control
I just cant stop losin' control

I've got these voices
