

# Kasia Dereń & Mateusz Krautwurst, Something S

I know what I've got - never second chance  
Feel like the heaven can exist even in our place  
Though I sleep with you  
Spend almost every day  
I'm with you at the same time feeling space

I know I can breathe  
Now I know  
With you I can live  
Building our home  
And no matter if I'm ever alone  
With you I feel hope

Above the see the sun is rising  
Now I can see it in the mirror of your eyes  
We've got something special darlin'  
See now - we wait until the stars will bring us the night

You love rhymes more than golden dimes  
Reading between the lines  
Since you stole my heart - you own my mind  
Never in my life felt so satisfied  
Never before all the fears vanished from inside

I know I can breathe  
Now I know  
With you I can live  
Building our home  
And no matter if I'm ever alone  
With you I feel hope

Above the see the sun is rising  
Now I can see it in the mirror of your eyes  
We've got something special darlin'  
See now - we wait until the stars will bring us the night
