

Kaskade, One You

One you, one me
One heart
Baby let's make this right,
Take this flight, break this distance.

It's not like me
To sit around and wait for anything I want
It's not likely
That I would pass away the day just dreaming
Dreaming of you with me and you
What we could do together
Somebody tell me
How we could be if you could see
What I'm feeling for you

I get impatient
When reality is falling way behind
Keep up with me
My life won't hold up anymore for dreaming
Dreaming of you with me....
