

Kaskade, The X

Darling, we were just starting out
But I cant deny the someone I saw
Darling, we were just starting out
Dont make a sound of it
Hope I did right

I wont pretend
She was less than a friend
Together such a long time ago
Forgot how she made me feel so
Then out of the blue
God gave me you
And this is where my heart is at
And Ill never look back

Darling, we were just starting out
But I cant deny the someone I saw
Darling, we were just starting out
Dont make a sound of it
Hope I did right

Darling, Im sure
Weve got something that's pure
And this is where our love will live
Weve got so much to give

Roll me once again
Soak into your skin
With all my soul
Im gonna take hold
