

Kaskade, We Don't Stop

We hold who we are
We carry the weight of the storm
And we hope to be whole
Buried where memories are born

We don't stop,
We don't stop for no one!
We won't break, the world won't wait for you!

We don't stop,
We don't stop for no one!
We won't break, the world won't wait for you!

We hold who we are
We carry the weight of the storm
We were born to be Gods
Chasing the light that we are

We don't stop,
We don't stop for no one!
We won't break, the world won't wait for you!

We don't stop,
We don't stop for no one!
We won't break, the world won't wait for you!
