Kataklysm, As I Slither

I can't belive it came to this, I live my life with no regrets Stripped down, from all my dignity, you took it all from me I rise. Every single time you lie To me...I'll play that game of hate

As I slither. I slither down your spine. Slither! I slither down your spine. Slither! I slither down your spine. Slither! I'll take all away...I'll take your life away I'll take it all away

I can't believe it come to this, I live my life with no regrets Stripped down, from all my dignity, you took it all from me

I rise. Every single time you lie To me...I play that game of hate

As I slither. I slither down your spine. Slither! I slither down your spine. Slither! I slither down your spine. Slither! I'll take all away...I'll take your mind away...

Don't try to comprehend me Don't try to criticize me Watch me as I slither. As I slither. Around your neck
