Kataklysm, Machiavellian

There are many ways to victory But only one to conquer To be king or to be slave For revenge or for submission

Show him your strong when you're really weak Show him your weak when you're really strong Always know what your enemy is thinking For every attempt he will be vanquished

The only way to rule is to be machiavellian!

To be loved or to be feared To be trust or not to trust Love disappears but fear remains Trust is fuel for the enemy
