

# Katatonia, Had To (Leave)

So you were with us until the last minute  
And then you were gone from here  
And I watched and I just figured out  
That I will never see you again

I had a choice  
You had to leave  
Into the night  
This was my choice

It's so hard to explain what I meant  
When I said that I wanted you dead  
But I saw you fuck up and I just can't get back  
The feeling I had for you

I had a choice  
You had to leave  
Into the night  
This was my choice

So I put all my strength into my only will  
It was the only thing to do  
And now I only regret that I cried  
'Cause you would never do that for me

I had a choice  
You had to leave  
Into the night  
This was my choice
