

Kate Alexa, I Let Go

Holdin' on it does nothing for me
solid ground just makes me feel unsure
on the edge I never get uneasy
nothing seems to scare me anymore
the look that's in your eyes
made you feel the same
my heart beat rises high
when you say my name

CHORUS

I let go when I know
there's no safety left below
I let go so I'm free to fall
and my feeling begins
in the way you make me spin
and it happens everytime I hear you call
I Let Go

Empty rooms threaten me with shadows
now the night it feels just like a friend
I always was the girl who walked home backwards
so the journey never had to end
your smile is like a spark that lights up all around
your whisper in the dark is now, now my favourite time

CHORUS

I let go when I know
there's no safety left below
I let go so I'm free to fall
and my feeling begins
in the way you make me sway
and it happens everytime I hear you call
I Let Go

You like to stage about me
I don't have to change my crazy
cause you get the girl I wanna be

I let go when I know
there's no safety left below
I let go so I'm free to fall

CHORUS

I let go when I know
there's no safety left below
I let go so I'm free to fall
and my feeling begins
in the way you make me sway
and it happens everytime I hear you call
(I Let Go x 5)
