

Kate Miller-Heidke, Delay

I don't delay
When it's your car
My driveway
You know I can't say no
But this is not good love
So what are you so afraid of
That the big bad lonely wolf is coming to knock you down
Why did you come over here tonight
You know I thought we talked this over yesterday
And how come every time I try to say goodbye
It doesn't come out right, it's just delay
Odelay
Why did you come over here tonight
You know I thought we talked this over yesterday
And how come every time I try to say goodnight
You only end up sleeping over anyway
And you never used to like to stand in line
Got so frustrated every time you had to wait
Well can I ask you what's so different this time
It's just a matter of time, it's just delay
Odelay
