

Kate Nash, The nicest thing

All I know is that you're so nice,
You're the nicest thing I've seen.
I wish that we could give it a go,
See if we could be something.
I wish I was your favourite girl,
I wish you thought I was the reason you are in the world.
I wish I was your favourite smile,
I wish the way that I dressed was your favourite kind of style.
I wish you couldn't figure me out,
But you always wanna know what I was about.
I wish you'd hold my hand when I was upset,
I wish you'd never forget the look on my face when we first met.
I wish you had a favourite beauty spot that you loved secretly,
'Cos it was on a hidden bit that nobody else could see.
Basically, I wish that you loved me,
I wish that you needed me,
I wish that you knew when I said two sugars, actually I meant three.
I wish that without me your heart would break,
I wish that without me you'd be spending the rest of your nights awake.
I wish that without me you couldn't eat,
I wish I was the last thing on your mind before you went to sleep.
All I know is that you're the nicest thing I've ever seen
I wish that we could see if we could be something
