

Kate Nash, Under-estimate The Girl

Everybody play, play it so safe
No one wanna mess, mess with the rules
/x4

I feel like my head may explode
All my friends keep me alive though
I feel like myself I'm able
To get my, get my

My release, my release
My release, yeah my release

I keep my cause close to my chest
My heart is alone, eyes undress
My heart! I wear my heart
On my sleeve

Underestimate me
Underestimate the girl
(Go on, underestimate her!)
Underestimate her

You keep pretending your happy
You keep reading your magazine
Your baby is fuckin' me

You're the one you say you hate, you're
Every chance you had to waft it off
You probably made a big mistake

Underestimate me
Underestimate the girl
(Go on, underestimate her!)
Underestimate her
