

# Kate Ryan, I Like The Way

Every day I think about you  
You're every ray of light that shines

You're in my dreams  
Pictures in my mind  
I'm closer to you now  
Time after time after time after time

I like the way you hold me baby you know it...  
Show me your love  
I like the way you move me baby you know it...  
Show me your love

I like the way, I like the way,  
I like the way you hold me baby  
I like the way, I like the way,  
I like the way you hold me baby

Nothing was meant to last forever  
And love is the reason we survive

Animal instincts  
Expression never lies  
Capture my senses  
Time after time after time after time

I like the way you hold me baby you know it...  
Show me your love  
I like the way you move me baby you know it...  
Show me your love

I like the way, I like the way,  
I like the way you hold me baby  
I like the way, I like the way,  
I like the way you hold me baby
