

Kate Ryan, Love Or Lust

Is it love or lust
Is it love or lust
Tell me baby what comes first

Sometimes I need to hear
How you feel for me
I know it's not your style
But it's killing me

If you are in love with me convince me
If you are in love with me convince me

Sometimes I need those words
More than anything
Top stop me from
Wavering over everything

Is it love or lust
Tell me baby what comes first

If you are in love with me convince me
If you are in love with me convince me
