

Kate Ryan, We all belong

Bigger than the sky above
Music gives me so much love
Higher than you'll ever be
Let the rhythm set you free
Make your move, don't be ashamed
'Cause in the end we're all the same
Don't care about what others say
Just let the rhythm make your way
People come on
Let's get get get together
Let the music play on
Play on forever
We can make
This world much better
Get up, get on
We all belong yeah
An ocean of our energy
United we are breaking free
Come on closer touch my skin
Breathe out so I can breathe you in
Make your move, don't be ashamed
'Cause in the end we're all the same
Don't care about what others say
Just let the rhythm make your way
Chorus
