

# Kate Voegele, Wish You Were Here

Gone away are the golden days  
They're just a page in my diary  
So here I am a utopian citizen  
I'm still convinced  
There's no such thing as idealism

Well memories that followed with me like a shadow now  
And I'm dreamin'  
'Cause I've already suffered the fever of disbelief

But I've seen your act  
And I know all the facts  
I'm still in love with who I wish you were

And it ain't hard to see  
Who you are underneath  
But I'm still in love with who I wish you were  
I wish you were here

I was true as the sky is blue  
But I couldn't soon say the same for you  
So now I find denial in my eyes  
I'm mesmerized by the picture that's in my mind

Tell me when I'll finally see your shallow heart  
For what it is  
'Cause I don't want to keep on believin' in illusions

'Cause I've seen your act  
And I know all the facts  
I'm still in love with who I wish you were

And it ain't hard to see  
Who you are underneath  
But I'm still in love with who I wish you were  
I wish you were here

Sometimes I can't explain  
And I'm so sorry that I can't  
I'll try to concentrate  
On your true identity

'Cause I've seen your act  
And I know all the facts  
I'm still in love with who I wish you were

And it ain't hard to see  
Who you are underneath  
But I'm still in love with who I wish you were

I've seen your act  
And I know all the facts  
I'm still in love with who I wish you were, yeah

It aint hard to see  
Who you are underneath  
I'm still in love with who I wish you were

I wish you were here...  
I wish you were here...  
I wish you were here...
