

Keahiwai, Were We Meant To Be

so tell me boy
that your willing to forgive me
cause i was so young
and i was too blind to see
that the love we share
was a love one of a kind
so tell me now
what i got to do to make you mine

were we meant to be
is it just a memory
that has just faded away
were we meant to be
do you even think of me
or am i just too late

well i know your scared
all i want is one more chance
and i promise you
all my time and sweet romance
all you have to do
is just give us one more try
and our hearts will soar
like the clouds up in the sky

were we meant to be
is it just a memory
that has faded away
were we meant to be
do you even think of me
or am i just too late?

well i dont want no sorrow
i just want the sun to shine
the birds will sing tomorrow
if you tell me that your mine

were we meant to be
is it just a memory
that has faded away
were we meant to be
do you even think of me
or am i just too late
