

Keaton Simons, Just Outside My Window

Just Outside My Window

When she told me you had died
I took a breath
Blinked my eyes
And didnt show it
It wasnt till I heard the song
that squeezed my heart
and brought the storm
just outside my window

Now I feel
it cant be real
Please take me home
Your empty body
doesnt remind me

CHORUS

In the beginning
there was nothing
Some things never change
Just outside my window
is the rain
We had plans
and we had time
I really thought wed live our lives
here together

But like a Monarch Butterfly
a glimpse of beauty passing by
Just outside my window

Now I feel
it cant be real
Please take me home
Your empty body
doesnt remind me

In the beginning
there was nothing
Some things never change
Just outside my window
is the rain

Is the rain
Just outside my window
Just outside my window

Oh
In the beginning
there was nothing
Some things never change
Just outside my window
is the rain

Is the rain
Oh

In the beginning
there was nothing
Some things never change
Just outside my window
is the rain

Is the rain
Just outside my window
Take a look

Take a look outside
my window
Take a look outside my window
Just outside
Just outside
