

Kehlani, get me started (ft. syd)

First, we was touchin' and just kissin' softly
Ended up fussing, can you get up off me?
Gettin' emot—, gettin' emotional
Gettin' emot—, gettin' emotional

It ain't been the same between us
Where's the disconnection? (Oh, oh)
You need somethin' else
Well, maybe she can do it better (Better)
I guess, choose peace over stress (Oh)
Can't clean up your mess
You wanna leave? Be my guest

Pushin' my buttons, you gon' get me started
Call me aggressive, I'm just bein' honest
Ain't gotta do too much, much, much
Hey, this is a little too much, much, much (I am too much)
Why you gotta do so much, much (Much), much? (Much)
You don't gotta so do much, much, much

This ain't no nonchalant, let's have a heart to heart
Talkin' 'bout splittin' up, you thinkin' 'bout givin' up
That's irrever—, that's irreversible
Who gon' get hurt, who gon' get hurt? You don't know

It ain't been the same between us
Where's the disconnection? (Oh, oh)
You need somethin' different
Maybe she can do it better (Better)
I guess, choose peace over stress (Oh)
Won't clean up your mess
If you wanna leave, be my guest

Pushin' my buttons, you gon' get me started
Call me aggressive, I'm just bein' honest
Ain't gotta do too much, much, much
{Swear it's just a little too much, much, much} (I am too much)
Why you gotta do so much, much (Much), much? (Much)
{You ain't gotta so do much, much, much}

Pushin' my buttons, you gon' get me started (Ah)
