

Kelis, Intro (Kelis Was Here)

This is my story
This is my mark
For all of the ages
Until it's so dark
Like a grave that's been found
Or flames that began at first spark
This is my song

This is my story
This is my mark
From beginning to start
Or where the world's been born
We've all gotta fly
I'll tell you why
The way you die has always been a lie
'cause one day is so far off here
Your children's babies' babies' babies' babies' babies will know
That Kelis was here!
