

# Kelli Ali, Fellow Man

Stone cold city lights  
Glittering gold  
Where we headed to day?  
So much beauty in every soul  
And I just wanna say...

Gonna give a smile  
Gonna shake a hand  
It's time to love  
My fellow man

Gonna get on top  
Gonna make a stand  
And sing my love for fellow man

Wanna talk about sharing our love  
Hold a hand in the dark  
It's so easy there's always enough  
Baby, here's how we start...

Gonna give a smile  
Gonna shake a hand  
It's time to love  
My fellow man

Gonna get on top  
Gonna make a stand  
And sing my love for fellow man

Ah ah ah  
We live and we learn  
Only the free can see  
How the sun shines

Ah ah ah  
Wherever we turn  
I will love you will love me we'll be  
Just fine

Gonna give a smile  
Gonna shake a hand  
It's time to love  
My fellow man

Gonna get on top  
Gonna make a stand  
And sing my love for fellow man...
