

Kelli Ali, The Infinite Stars

Who do you call when you need somebody?
Who do you call when it's goin' down?
Who do you call when you wanna turn it around?

Let it be me baby
Let me be the one
'Cos I was born for pleasure
And you are so much fun

In your arms, the infinite stars
Collide and come together
Blue blue days
Without you
I spend in disarray

If the world is goin' to end
Then I'd feel so much better
If you love love love me
Hey hey hey

Who's gonna make this new world better?
Who's gonna shine the sun at night?
Who do you call
When you wanna feel alright?

Let it be me baby
Let me be the one
Think of all the lovely
Things we've never done

In your arms, the infinite stars
Collide and come together
Blue blue days
Without you
I spend in disarray

If the world is goin' to end
Then I'd feel so much better
If you love love love me
Hey hey hey

Let it be me baby
Let me be the one
'Cos I was born for pleasure
And you are so much fun

In your arms, the infinite stars
Collide and come together
Blue blue days
Without you
I spend in disarray

If the world is goin' to end
Then I'd feel so much better
If you love love love me
Hey hey hey

If you love love love me
Hey hey hey
If you love love love me
Hey hey hey

Who do you call when you need somebody?
Who do you call when you need somebody?

Who do you call when you need somebody to love?
