

Kelli Ali, Wings In Motion

Love

Like a eagle in the sky
Into the sun I watched it fly

Wings in motion

Feel no sorrow

Love

If you care then set me free
There's still so much we have to see

Wings in motion

No tomorrow

If I don't fly

I think I'll die of loneliness
My heart no longer touches the ground
Can't stop the world from moving on
'Cos I know this
It goes around, goes around, goes around

Light as a feather on a breeze

Lost as a teardrop in the sea

Wings in motion

Feel no sorrow

If I don't fly

I think I'll die of loneliness
My soul is drifting aimless as a cloud
Can't stop the world from turning
'Cos I know this

It goes around, goes around, goes around

It goes around, goes around, goes around

It goes around, goes around, goes around
