

# Kellie Pickler, One Last Time

I wanna lay in your bed  
Stare in your eyes  
Feel your heart beating with mine  
One Last Time...  
One Last Time...

Never be any tears  
That's not why I'm here.  
Baby, turn out the lights and lasts disappear.  
One Last Time...  
One Last Time...

Cause I'm not here to fight  
About who's wrong or right  
I just want your kiss  
I want to feel just like this.  
One Last Time...  
One Last Time...

Your breathe on my neck  
I dont wanna forget the smell of your skin.  
Touch me again.  
One Last Time...  
One Last Time...

Cause I'm not here to fight  
About who's wrong or right  
I just want your kiss  
I want to feel just like this.  
One Last Time...  
One Last Time...

And then when you fall asleep  
I'll kiss your cheek  
Whisper goodnight  
And I'll just bleed  
One Last Time.
