

# Kelly Clarkson, Tip Of My Tongue

Never saw 'I Love You' as a trend  
'Cause I don't really work like that  
I mean what I say when it leaves my lips,  
Nothin' you could say would change my heart  
'Cause I don't really love like that  
If you'd only let me in I'd show ya  
But I'm tired of workin' so hard  
You keep pushin' me away tearin' down your walls  
Is forcing me to break  
Don't know what to say will you ever let me in  
It's hard for me to pretend  
So tell me what you wanna do  
Tell me is there any other way  
'Cause goodbye's on the tip of my tongue  
Tell me there's a reason to say  
Cause I'm about to get up and run  
Better think about the words you say  
If you don't wanna end up alone  
Tell me is there any room for me  
Cause when it's all said and done babe  
I'm tired of singin', oh  
Goodbye's on the tip of my tongue, oh  
Goodbye's on the tip of my ...  
Never confuse me with where you've been  
Cause I don't really work like that  
If I'm holdin' you then I'm all in  
I know you're scared,yeah you've been burned  
But I won't ever hurt you like that  
If you'd take a chance I'm not like them  
Give and get nothin' in return  
You don't seem to care  
You're not the only one who hurts  
Tell me what you wanna do tell me is there any other way  
'Cause goodbye's on the tip of my tongue  
Tell me there's a reason to say  
Cause I'm about to get up and run  
Better think about the words you say  
If you don't wanna end up alone  
Tell me is there any room for me  
Cause when it's all said and done babe  
I'm tired of singin', oh  
Goodbye's on the tip of my tongue, oh  
Goodbye's on the tip of my tongue, oh  
Goodbye's on the tip of my tongue, oh  
Goodbye's on the tip of my ...  
Why ya gotta pull away  
Pull away and leave me hangin'  
Why ya gotta make me say  
Don't make me say what you've been thinkin' all along, oh  
Goodbye's on the tip of my tongue, oh  
I'm about to get up and run
