

Kelly Family, First Time

Today for the first time
For the first time
You took my hand
Today for the first time
Touched a warm heart
What a lucky girl

Cause you opened your heart
And you gave it to me
So don't tell me that you don't love me
You opened your heart
And you gave it to me
So don't tell me that you don't need me

For me for me
You're the one you're the world
Someone is anyone there
My body needs warmth
It's a mad mad world
Today for the first time
I heard my heart stop
As he flew away

Open your heart
And give it to me
And don't tell me that you don't love me
Open your heart
And give it to me
And don't tell me that you don't need me

Sometimes I just fall and break
Sometimes it just overflows
I can't take no more
I can't take no more no more

Open your heart '

Tonight for the first time
All the stars shine
But you're the brightest one
My love
