

Kelly Family, Swing All Night

Will the sun shine on his soul or
When the rain fall on his hair or
Will he walk on stage again

Should we sing for you again or
Should we dance for you again or
Should we give you all we have

He said swing and dance all night
Come on baby
He said swing and dance all night
Come on baby

He said you got more than you can see
All you need is a pair hand
So clap along with us baby

Grandmamas and punky heads
Come and clap your hands together again
Scream out real loud with us yeah, yeah

We all swing and dance all night
Come on baby (2x)

You can do it I know you can
So take your hands together again
So take your hands and mine baby

Come and sing for us again
Come and dance with us again
Oh come and feast once more baby

Come and sing for us again or
Come and laugh with us again or
Come and feast once more baby

We all swing and dance all night
Come on baby (2x)
