

# Kelly Groucutt, Black Hearted Woman

She's a black hearted woman  
I know the devil is her man  
She's a black hearted woman  
And she'll take you for all she can

Stay away from me woman  
You cause me so much pain  
I make my mind up to leave you  
But I come crawling back again

She's only fooling you  
I've got to get away  
You won't know what to do  
But I've got to get away

I sold my soul to that girl  
I bought a ticket straight to hell

And for me there's no return  
I'm imprisoned by her spell

She's only fooling you  
I've got to get away  
You won't know what to do  
But I've got to get away

Keep away from woman  
You cause me so much misery  
Get you back to the devil  
And get your hands off me

She's a black hearted woman  
I know the devil is her man  
She's a black hearted woman  
And she'll take you for all she can

She's a black hearted woman  
I know the devil is her man  
She's a black hearted woman  
And she's gonna take you for all she can
