

Kelly Jones, Suzy

I used to watch you sing
Underneath the sun
Untill I passed out
You came to rescue me
So i came to believe
You were ny remedy

I loved to watch you swin
We'd drink at night in the water
Moonlight on our skin
We never said goodbye
Do you think we should have?
Or is it better this way?

So bye bye little suzy
Never wanted to use you
I had to get on home
So bye bye little suzy
Never wanted to lose you
And leave you there all alone

We float on down the beach
Underneath the star
And dance in the sand
I left you sleeping that night
I didn't wanna wake you
So we'd always be right
