

Kelly Osbourne, Uh Oh

My hands are down I can no longer masquerade
You're just like poison in my veins killing me inside
I know you tell everyone I'm what's her name
But you're story tends to change when you look in my eyes

Uh oh
Do you really wanna know?
Don't waste another minute of my precious time

The social strain is watching you out with all your friends
With the disgust that you pretend when I walk on by
You wear it well treating me like someone you don't know
But then you call me on the phone to tell me goodnight.

Uh oh
I think I better go
Before I turn this love into a crime

Uh oh
Do you really wanna know?
Don't waste another minute of my precious time

You can turn me inside out
You can follow me around
I don't care what you do
Just as long as you know I'm through

Uh oh
I think I better go
Before I turn this love into a crime

Uh oh
Uh oh
Do you really wanna know?
Uh oh
Don't waste another minute of my precious time

Uh oh
Uh oh
Uh oh
Uh oh
Don't wanna think about when you were mine
