

Kelly Price, One Family

Verse 1

(Claudia) Forgetting the old and starting things brand new
the past is gone and the future's here for you this Christmas

(Celeste) The world's a little kinder too cause everybody
observes the golden rule at Christmas

(Cheree) Love's unconditional and we're all emotional
because our hearts have been made new

(Cheree/Kelly) Love's unconditional and we're all emotional
because our hearts have been made new

Verse 2

(Joni) Give thanks to God for where He's brought us from.
He's given us blessings, He's given us His son this Christmas.

(Sakina) I want the gifts and the finer things but I know better that love is what we need at Christmas

(Kelly) Love's unconditional and we're all emotional because
restorations come (repeat) because the family is one)

We are one one family through the year not just Christmas
