

Kemopetrol, Drown Little Girl

Drown little girl
You're a stone in deep water
What made you sink I can't remember
There's so much happening
It leaves me cold 3x

I keep seeing you
Everyday now on my TV
And when I get bored
I turn it off, you don't exist anymore
It leaves me cold 3x

It's in my face
Those shiny satellites, these sad commercials
And I've shit concern, thrown up compassion
I've got nothing left to give
It leaves me cold 7x
