

Kendall Payne, Backwards

You cant go backwards you must go forward
You have not been what you could be
You are the only one who enslaves you
Youre the only one who can set you free
Dont run away, question the answers
Live your life like its on fire
Youre one mistake is to think that youve made one
Dont run away
You cant have mountains without the valleys
You cant go high if you wont go deep
You cant do over what youve done already
Expecting something new to see
Dont run away, question the answers
Live your life like its on fire
Youre one mistake is to think that youve made one
Dont run away
I will not be bought, will not be caged
Wont stay behind my walls where it is safe
No Im tired of trying to compensate for you
For you
Dont run away, question the answers
Live your life like its on fire
Youre one mistake is to think that youve made one
Dont run away
