

Kendall Payne, Lines

Gather along the lines
Gather along the lines
You'll be safe inside
Just gather along the lines
No one has to know as long as you dont smoke those cigarettes
You can keep your heart of stone and say you forgive but you dont ever forget
We cant keep this up much longer
Grace is driving the hardest bargain
The perfect world we have construced
Keeps more people out than lets them come in
Let it shine if youve got any light left
Let it rise and sing as loud as you can get
Weve got to live,
Weve got to love,
Weve got to laugh
Weve got to learn to breath outside the lines
We got to learn to be outside the lines
Gather along the lines
Gather along the lines
Keep your prejudice and pride
Just gather along the lines
Everyone will think that you are so important to the Lord
But never bend you knee
Oh that wasted time you cant seem to afford no
We were caught inside the bubble,
Some sense of family some sense we belonged
And when we pleased them they were happy
But God forbid that we should ever do wrong
Let it shine if youve got any light left
Let it rise and sing as loud as you can get
Weve got to live,
Weve got to love,
Weve got to laugh
Weve got to learn to breath outside the lines
We got to learn to be outside the lines
I dont think hes threatened
When we ask questions
When we have doubts and disbelief
I dont think hes angry
When we are human thats
What he made us to be
Let it shine if youve got any light left
Let it rise and sing as loud as you can get
Weve got to live,
Weve got to love,
Weve got to laugh
Weve got to learn to breath outside the lines
We got to learn to be outside the lines
