

# Kendall Payne, Touch

Dont touch me  
Dont touch me there  
Dont touch me  
Dont touch me there  
'Cause I am baring and he is staring  
We are trapped and caged like animals  
I am small it isnt fitting  
I am screaming but no ones listening  
Dont touch me  
Dont touch me there  
I forgot what it feels like to feel safe,  
I forgot what it feels like to feel brave  
A shattered soul never heals,  
This heart of flesh has turned to steal  
And Ive forgotten how to feel  
He liked her  
He liked her that way  
He broke her  
She has never been the same  
Can you imagine?  
And can you fathom such a place where evil spreads its seed?  
Its upon us  
Its beneath us  
Its up to us to do something  
He liked her  
He liked her that way  
I forgot what it feels like to feel safe,  
I forgot what it feels like to feel brave  
A shattered soul never heals,  
This heart of flesh has turned to steal  
And Ive forgotten how to feel  
Listen little children to the story of a girl who found her  
Knight and shining armor when he saved her from the dragon he was  
Strong and not afraid that there was smoke and there was fire and they lived  
Happily ever after in his castle far away  
Listen little children to the story of a girl  
Dont touch me  
Dont touch me there
