

# Kenny G., One More Time (Featuring Chante Moore)

I lie half awake  
Late at night  
I reach out to touch you  
To feel you by my side  
And I reach  
And I reach  
But I never get to feel you  
Will I ever get to feel you again?  
Again...

Just one more time  
One more moment  
To take you in my arms  
One more chance  
One more kiss  
Before I wake to find you gone  
One more time  
Before I have to face another day  
And my heart breaks...again

It's only a dream  
But it's also real  
I don't want it to end  
But I know it will  
So I pray and I pray  
Every night I'm on my knees  
Begging for the chance to see you again  
Again'
